

Install module homepagecategorie
By Prestashop.

Go to the module tabs on click on « add a module »
Choose file **homepagecategorie.zip** and submit the form.
Look for « other modules » tabs and select the module and click on install.

By FTP :

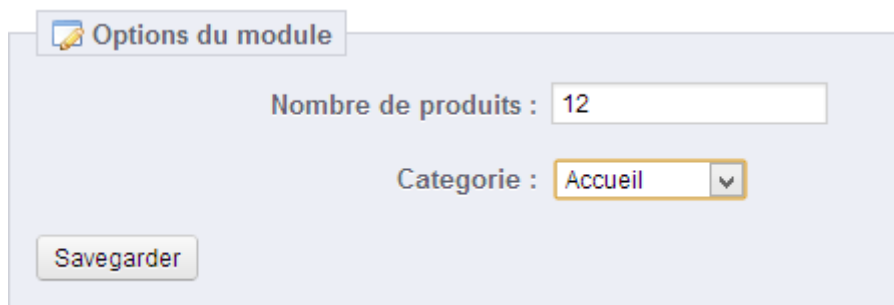

Connect your Computer to your ftp server by a software like filezilla.
On your desktop, unzip file **homepagecategorie.zip**
after that, take the folder homepagecategorie and put this on your modules folder on your FTP

Look for « other modules » tabs and select the module and click on install.

If the logo don't appear, please check the chmod of homepagecategorie folder and verify if there are in 755.

Configuration du module :

In the options, you 'll find 2 input, the first can define products number to display the second, the products category to display.

The screenshot shows the 'Options du module' configuration page. It has a light blue background. At the top left is a tab labeled 'Options du module' with a pencil icon. Below it, there are two configuration fields: 'Nombre de produits : 12' with a text input field, and 'Categorie : Accueil' with a dropdown menu. At the bottom left is a 'Savegarder' button.

Click on **Save**

take a look on the front office;)

The screenshot shows the front office of a Prestashop store. At the top is a dark grey header with the word 'ACCESSOIRES' in white. Below the header are two product listings. The first listing is for 'Housse portefeuille en cuir...' with a price of 29,95 €. The second listing is for 'Écouteurs à isolation sonore...' with a price of 149,00 €.

Product Name	Description	Price
